

S-pushTAN procedure using Android

Quick reference for users switching from smsTAN or chipTAN

Note: First install the S-pushTAN App as well the Sparkasse App on your smartphone/tablet.
The figures may slightly differ.

Download pushTAN-App

Setup of the S-pushTAN App

Step 1

- Start the **S-PushTAN-App** on your smartphone/tablet.
- You are requested to file a password for the access.
- The password must comprise at least 8 characters (composed of numbers, letters and one special character).

Example: **werder+1**

Step 2

- Scan the QR code from the registration letter.
- Shortly after, you will get the activation code.

Step 4

- Enter the activation code transmitted via the S-pushTAN App and operate the „Weiter“ (continue) button in order to complete the activation.

Step 5

- Then you receive, via the S-pushTAN App, the information that the activation of the S-pushTAN connection has been successfully completed.

Step 3

- In the next step, you open the start page of Sparkasse Bremen on your PC and enter your **login name/leg.-ID** and the **PIN** in the login area for online banking.
- Click on „Login“

Stark. Fair. Hanseatisch.

Quick reference for users switching from smsTAN or chipTAN

Setup of the Sparkasse App

Step 6

- Just like for the S-pushTAN App, there must be filed a password in the initial registration.
- We recommend to activate the request regarding individual offers that follows.

Step 7

- Enter the BLZ (bank Code) 29050101 of Sparkasse Bremen.
- Then tap on the „+“ add account and then on bank account.

Step 8

- Enter your login name/leg. ID and operate the „Weiter“. (continue) button.
- Then enter your PIN.
- We recommend not to save the PIN.

Note: In Order to use Online Banking via smartphone or tablet, you still need to set up the Sparkasse App.

Step 9

- There is built-up a connection to the server of Sparkasse and your accounts are retrieved.
- The accounts following are transmitted by your bank.
- After completing the account setup, tap on „Fertig“ (complete).

Step 10

- In the last step, the account transactions are retrieved.
- After the refresh has been completed, you can inspect all transactions (postings).
- To do it, tap on the respective account.

Note: If you already administer your accounts via Sparkasse App using the smsTAN or chipTAN procedure, you still must do the following:

Tap on the symbol „Bearbeiten“ on the lower left in the list of accounts. Behind one of the accounts displayed tap on the tool symbol. Under „Zugangsdaten“ (access area) , you get to the menu item „Zugangsdaten ändern“ (change access data). Tap on „TAN-Verfahren abrufen“ (change TAN procedure) and update the TAN medium. Now you can use all transaction via both, the **Website of Sparkasse** and the **Sparkasse App**.
